Option Trading Takes Guts!

It Takes Intelligence, It Takes Tenacity. It Takes Bonneville and Optionomics!

Bonneville Market Information Gives You:

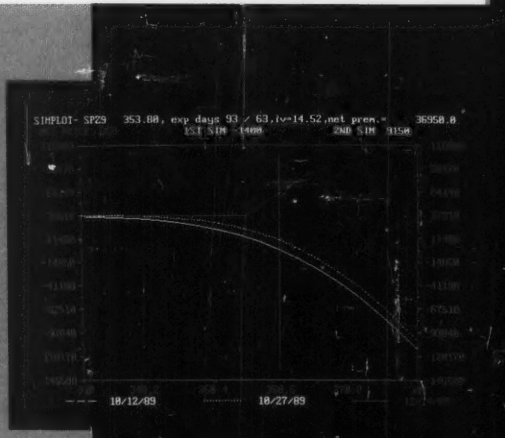
- 14 years of quote broadcasting experience.
- Affordable prices for real-time quotes.
- A helpful customer service dept. with an 800 number and Bonneville's own on-site service.
- Fast installation. Our goal is to get your system installed within two weeks.
- A variety of software packages to help you with your trading.
- Informative news services like Bonneville's own news, FWN, Evans Investment Advisors, News-A-Tron and Petroflash.
- All domestic exchanges, all Canadian exchanges and London futures.

Optionomics Gives You:

- Portfoliomics, a real-time view of risk that no other system can match.
- The ability to monitor the dynamics of Implied Volatility, Delta, Gamma, Vega and Theta.
- The capability to simulate virtually any option strategy.
- The ability to analyze arbitrage opportunities.
- The capability to display up to 25 commodities on your screen.

The new Optionomics strategy simulation and real-time analysis gives you the market insight you need to both manage your risk better and spot new opportunities faster with more accuracy.

Together, we've got what it takes!



Using simulation graphs, you'll see the effects of time and price change on any futures and options position, and quickly identify your best opportunities!
